Back-End: Python (Django, Django Rest Framework), Ruby (Ruby on Rails), JavaScript (Node js, Express.js), Database (PostgreSQL, MySQL, MongoDB)
Tools & Methods: Heroku, AWS, Mobile/Responsive Development, TDD, Chrome Dev Tools
Version Control: Git, GitHub
Professional: Remote Pair-Programming, Teamwork, Mentoring, Problem-solving

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer & Mentor   Jan 2023 – Present

Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building 20+ full-stack projects both independently and via pair programming.

Rent-A-Car — A beautiful web app where users can rent cars, manage their rentals, and more.
- Built with: (React.js, Ruby on Rails)

The-Sky — A beautifully made weather app that shows the weather condition based on the user's location, it uses Open Weather API to fetch weather data.
- Built with: (React.js, Ruby on Rails, OpenWeather API)

NasaVerse — A beautiful website to surf through exciting pictures of the universe.
- Built with: (Javascript, Fetch API, HTML, CSS, Nasa Open API)

NETLINKS   Kabul/Afghanistan
Python, Odoo (OpenERP) Developer (Internship)   Jul 2023 – Present
- Created a full-featured online car booking system using Django Rest Framework and React.js.
- Learned a new web framework (Odoo) in 2 weeks.
- Worked closely with 3 senior developers to customize and extend Odoo modules to meet specific business requirements.
- Worked with relational databases (PostgreSQL) to store and retrieve data in the Odoo application.

MICROVERSE   Remote
Mentor (Volunteer)   Jan 2023 – Apr 2023
- Mentored 2 junior web developers each week via Zoom and Slack, providing technical support through code reviews and offering motivational encouragement throughout the week.
- Proposed improvements to code organization aiming to enhance code quality, overall performance, and adherence to best practices in software development (DRY, SOLID).
- Provided advice and tips on maintaining motivation, aiding my 2 mentees in sustaining their commitment throughout the program.

EDUCATION

MICROVERSE   Jan 2023– Aug 2023
Remote Full Stack Web Development Program, Full Time
- Spending 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developing skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Kabul University
B.S. Computer Science   Aug 2019 – Aug 2023
- Developed a system for the encrypted transmission of formal documents for the university.
- Best student award.
